

SOL-CARE™ Safety Blood Collection Tube Holder Set

Ref	Description	Qty/Box	Qty/Case
7001BCD	Blood Collection Device	50	400

Features & Benefits

- System does not obstruct vision of the tip of the needle.
- Includes both a blood collection tube holder and a vacuum activation tube
- Compatible with standard multi-sample blood collection needles
- Eliminates user exposure to the contaminated needle
- Both exposed needles are permanently covered after use, prior to disposal
- Easy to use - both hands remain behind the needle when activating the safety mechanism

***No change in
technique vs.
non-safety
blood collection***
